

Hey so youre accusing me of being on IRC with roquestar forinstance, and dropping KoP's ip's and name do you have proof?

1h 1 hour ago

Hello, so what do you know of a twitter program that you made that documents peoples accounts.

We can start there first if possible please

Their*

1h 1 hour ago

Sure we can, what do you mean by documenting?

1h 1 hour ago

Well you designed it, you tell me

1h 1 hour ago

Yes, i have no secrets about designing a data-mining program, ive been very public about it, because i wanted anti gg to know that people /1

1h 1 hour ago

Have you used this program to mine any data off pro gg supporters or e celebs such as yourself?

1h 1 hour ago

are watching so that they cant delete their tweets, all is collected using legal information and coherent to twitters TOS, would you like a

copy

I have not used this to data-mine PRO gg supporters

1h 1 hour ago

But you have used it on what you deemed anti

1h 1 hour ago

oh shit yeah! there was that one stream i did, to teach gg how to datamine

1h 1 hour ago

And what kind of data mining was this. Credit cards? Personal info?

1h 1 hour ago

i did 2 logs of the [#gamergate](#) for 2 minutes or so, but yes mostly prominent Anti figures such as sarkesian and quinn

1h 1 hour ago

Sure id like a copy

So you have used data mining on Anita and Zoe Q correct?

1h 1 hour ago

No all legal to twitter, only tweets and RT / faves / twitter id's timestamps, device if possible.
this is all provided by twitter

yes i have

1h 1 hour ago

And your reason is because they can delete the feeds?

1h 1 hour ago

do you want it now, or after the interview

yes, so they cant hide what they've said. this is often a tactic used by both pro and anti

if its a spelling mistake sure its nothing, but say ie that you think all men should die (not saying this is the case, just an example)

1h 1 hour ago

Okay then, have you ever doxxed, harassed or threatened any pro or anti gg?

1h 1 hour ago

Well to my knowledge ive only ever threatend forcesargeas to get him to expose his tweet botnet, im sure ive said things that can be class/1

1h 1 hour ago

So you have threatened people openly

Mmk

Why?

1h 1 hour ago

-ified as threatening. im a very spontaneous kind of guy. but i dont hide myself when i do so, i rarely delete tweets

Force (as i like to call him) was asking for people to dox themselves, and i knew he had a RT botnet, so i threatend him to get him to

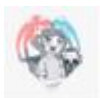

1h 1 hour ago

I see. Do you get along with every voice in gamergate?

1h 1 hour ago

expose that botnet, which he did. i posted a screenshot, deleted the threatning tweet and posted a statement

Well no, kingofpol and I have issues, ive also had issues with [@noprivilegeme](#) but thats squared up. i like most of the gamergate crowd /1

1h 1 hour ago

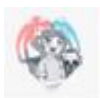

Do you mind if i ask you what those issues are between you and KoP? Also with noprivilegeme

1h 1 hour ago

oh yeah and foxigon for going after channers like he did a few days ago. but he backed down and apologized

Sure i dont mind, since most of it is public by now, KoP was dating this girl, whom i was friends with. we had a falling out and /1

took it out on twitter, he thinks i dropped her as a friend because he was dating her. which was not the case, i dropped her because she /2

1h 1 hour ago

If possible can you be more specific and any logs or info you can provide to verify your story matches up helps

1h 1 hour ago

I only have his side but most of it is in my feed but sure

1h 1 hour ago

Alright, continue your story please while you get the logs. Question: why didn't you get the whole story and only his side?

1h 1 hour ago

well its between him and me, so i have my side and his side

1h 1 hour ago

he said this in a skype group with 30 people, 3 of them told me

1h 1 hour ago

I dropped her because she broke my trust, and gave him false info, which he blew up to something big

i told her not to share that info (because it was a boldfaced lie)

and then i told him and her to go fuck them selves and blocked them both on skype

1h 1 hour ago

Wait, so why didn't you go to KoP first then? Warn him of it all before it went out of hand

Also, do you have a copy of that info that was falsified?

1h 1 hour ago

the nick denton stuff? no i do not but you might want to talk to hotweelz about that he would know more

i didnt go to him because i wasent sure i could trust him. when he ran with it i knew i couldnt trust him and stopped helping / giving inf

1h 1 hour ago

So the gg board dropping dox info of his girlfriend cindy at the time?

1h 1 hour ago

I have no idea about that, i just know from that screen that he accused me of it, hes also done so on twitter

1h 1 hour ago

So you knew KoP was fed false info and you know where it originated from but told his gf and not him?

Why would you do that exactly?

1h 1 hour ago

nono, i told his GF, i wasent sure if she would tell him, now when she told him. he ran with it within like 5 minutes

typical kop no fact checking

1h 1 hour ago

So you withheld the truth from kop but told his gf it was fake which caused him to run it without checking his bases?

Where did it originate from

1h 1 hour ago

i didnt know if kop was going to be told, so i couldent possibly withhold it from it, i made it up

60m 60 minutes ago

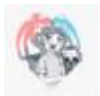

So your the one who made the denton posts? KoP claims that he was emailed these posts from what hotwheels article reads

Hotwheels confirms that the email did exist but was deleted.

Did you email him the denton post? If not, who else had access to those images

58m 58 minutes ago

now youre making accusations i had nothing to do with nick denton (as i told you earlier)

58m 58 minutes ago

Before kop ran it

I asked you earlier do you know where the denton images originated from

57m 57 minutes ago

and i said no

and i quote "the nick denton stuff? no i do not but you might want to talk to hotwheelz about that he would know more"

56m 56 minutes ago

So how did you know about the denton post before kop ran it and you were also able to tell his gf before he ran it.

55m 55 minutes ago

i didnt, i never said anything about the nick denton stuff, that is something you are saying. im saying i gave him some false info

54m 54 minutes ago

So then, what is the false info you gave him?

54m 54 minutes ago

and he didnt check it. i am not an idiot i wouldnt risk doing something that big, it was something really small, that people woudent think

twice about

54m 54 minutes ago

So what exactly was it you fed KoP?

51m 51 minutes ago

I gave cindy the info that the hitbox hacker used a node.js exploit to get into the hitbox system and that he left his name in the code

and that his parents were called, they were not :) police charges were just filed

49m 49 minutes ago

So why did you lie about something so small?

40m 40 minutes ago

I lied because i wasent sure if she could be trusted, and i needed a small lie which turns out i was right. now when we are done i have a

few questions for you

36m 36 minutes ago

I see, what do you know about skypegroups?

And hidden irc channels roquestar set up?

What questions do you have for us?

35m 35 minutes ago

I know that they exists, i know that nothing productive goes on in them, Roguestar and i dont talk much, like at all he needs me for the odd

thing here and there, other than that we never talk

Yes i have a few questions, regarding this why are you so hung up in king of pol
you made very public accusations of me doxing people. do you have proof

Last but not least, this conversation will be made public, do you have any issues with that

33m 33 minutes ago

We are not hung up on any single celeb. My accusations come from a basis of reading 2 months of tweets you made or liked and

Multiple testimonials of matching stories

Which some you owned here and some you have not

Though, you have lied in the past so i must talk with others to get more info and logs if any at all

32m 32 minutes ago

so basicly what you have on and are accusing me of is hearsay

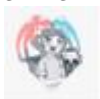

have on me*

31m 31 minutes ago

Matching testimonials are hard to come by ebolachan, wins courtroom cases alot if the times.
Just leads is all nothing personal

31m 31 minutes ago

sure but so is purgury

30m 30 minutes ago

As always anything you say can and will be used against you in any form. Understand that you are not the first nor last.

30m 30 minutes ago

Bring it

29m 29 minutes ago

If possible do you have any leads on anyone by the name of thidran or synthovine. Also who is noprivilegeme

29m 29 minutes ago

what you just said now, made me very uncooperative. you operate based on hearsay and not proof

29m 29 minutes ago

"Bring it" odd that isnt a threat thats what cops tell you when they read your rights

No I build a case til solid evidence is found. Its called an investigation, what any crime shows lately?

28m 28 minutes ago

you need proof and not hearsay

27m 27 minutes ago

I will tell you this much, one of us is a real life detective so we just use the tools we have. Nothing personal everyone is a suapect

Suspect*

27m 27 minutes ago

id dont really care what you think now, this convo will be made public

no edits :)

27m 27 minutes ago

Until proven guilty or innocent. It's how internal affairs works ebolachan. Thank you for your time

27m 27 minutes ago

as to you :)

26m 26 minutes ago

Sure thing. Nothing here was said out of contempt or wrong. Enjoy your day

Oh

I do have one last question

26m 26 minutes ago

sure

26m 26 minutes ago

Why is it when I talk to people about you, the first thing I hear is "he is dangerous"

One of them even gave me this screencap of a convo with KOP

So what is that bad dirt you have on everyone ebolachan? Why do you smell like a dirty suspect?

24m 24 minutes ago

I love that, i have no idea why people think i am dangerous. im a perfectly nice guy. yes regarding that image, i have several logs of pol

24m 24 minutes ago

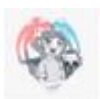

Has kop made threats of dropping information on others including yoy?

You*

24m 24 minutes ago

Spilling his spaghetti. all my dirt is collected on a legal basis :) yes and he did, he dropped a pastebin of a skype convo, i dont have it

it wasnt me, but he has lekead several skype convos

23m 23 minutes ago

Then I see no reason to dismiss the fact that you have intentionally fed false info to others, threatened to drop dirt on others and even

Taught others to data mine people you disagree with. Atm your in a pretty bad spot. We shall speak again have a good day

22m 22 minutes ago

Please do, I stand by everything ive done. nothing ive done is illegal. so you can say it to my face ben kuchera

21m 21 minutes ago

Testimonials put you in irc chats and skypegroups with ralphretort niedran and working on blackhat projects with roquestar i.e

Your odd jobs.

21m 21 minutes ago

Oh really, thats cool, id like to know what kind of blackhat projects, also remember that thing where i said i tested cindy with false info

19m 19 minutes ago

Nothing solid yet ebolachan but its close as hell. Enjoy your day now

19m 19 minutes ago

i do that to everyone, and youve revealed enough of yourself to make me know who your sources are

19m 19 minutes ago

You too

18m 18 minutes ago

So my testimonies putting you in everything I stated proves you know them. How would you know that if your never were in any groups?

Your making mistakes

10m 10 minutes ago

You're *

9m 9 minutes ago

Haha, have a good day I hope your logs help you out.
